1. Description of product

This bath seat has been designed as versatile product to provide additional height when sitting in a bath and to provide added comfort to the user.

The bath seats are constructed from sturdy & lightweight PVC plastic.

The bottom section has four rubber feet to prevent any slippage of the seat while in use.

2. Instructions for use

Place the bath seat in the required position in the bath. When removing the seat from the bath, first pull the tabs on the suckers to release the feet and then lift the seat out of the bath. Please store the seat safely.

Make sure that you have read the safety section before using the seat for the first time. The bath seat is available in three heights: 6", 8" & 12", each of these having 5 slats.

These seats are designed for a user to sit and be able to bathe, wash or shower in comfort. The seats have a Max. user weight limit of 190Kg (30stone)

Always consult your health care professional for advice on using the product safely.

WARNING:

- The bath seat is only designed for sitting upon. **DO NOT** stand or otherwise misuse the product.
- **Do not** exceed the stipulated Max. user weight on the seat.

CAUTION:

- Keep your hands and fingers clear of the gaps between the slats when using the seat.
- Ensure that the suckers on the feet of the seat are securely fixed to the bath to prevent any movement of the seat **before** each use.
- Keep this product out of direct sunlight or excessive heat, as this can cause the parts of the product to harden or crack.

NOTE:

- Some users may require supervision while using the seat. Please consult your healthcare professional for details.

3. Cleaning Instruction

Always remove the seat from the bath before cleaning. All parts should be cleaned periodically. Use a non-abrasive mild detergent along with warm water & a soft cloth to clean the seat. Rinse with clean warm water & a soft dry cloth. If disinfecting is required, a mild disinfectant that will not cause damage to plastics should be used.

CAUTION:

- Do not use any form of abrasive cleaner, cloth or sponge with this product as this could cause damage to the product. Strong acid, alkaline or products containing these chemicals may cause damage or discolouration to the product and should not be used.
- Autoclave cleaning is **NOT** recommended, as this can cause damage to the plastics used in the construction of the bath seat.

NOTE:

- After cleaning or disinfecting, all the parts should be showered down or wiped over with a damp cloth **before** the bath seat is used on the bath again.

4. Technical specification

Product Code	Length	Width	Height
